SECTION M - EVALUATION FACTORS FOR AWARD

52.217-5

Evaluation of Options.

JUL 1990

SECTION M BEST VALUE EVALUATION AND BASIS FOR AWARD (FFP) (APR 1997) (NSWCIHD)

I. The contract resulting from this solicitation will be awarded to that responsible offeror whose offer, conforming to the solicitation, is determined most advantageous to the Government price and other factors considered. The offerors proposal shall be in the form prescribed by this solicitation and shall contain a response to each of the areas. Proposals will be evaluated and rated against the factors listed below, in descending order of importance:

Past Performance
Cost/Price

B. PAST PERFORMANCE

1. The Government will evaluate the quality of the offerors past performance. This evaluation is separate and distinct from the Contracting Officers responsibility determination. The assessment of the offerors past performance will be used to evaluate the relative capability of the offeror and their competitors to successfully meet the requirements of the RFP. Past performance of significant and/or critical subcontractors will be considered to the extent warranted by the subcontractors involvement in the proposed effort.

2. The Government will evaluate the quality of the offerors past performance. This may include any aspect of past performance that is related to this contract. A record of poor past performance may be considered an indication that the offeror may be lacking in areas such as reliability, quality and customer satisfaction. However, a record of average or exceptional past performance will not result in favorable assessment of an otherwise technically deficient technical proposal. In evaluating an offerors past performance, the Government will consider information contained in the offerors past performance references, information obtained from other sources, including past and present customers, subcontractors and any others who may have useful information, and other past performance data available to the Government. Offerors with no past performance history will receive a neutral rating.

a. The subfactors listed below (which are equal in importance) will be used to evaluate past performance:

i. Product Quality. The offerors demonstrated ability to conform to contract specification requirements.

ii. Reliability. The offerors demonstrated ability to conform to contract requirements.

iii. Timeliness. The offerors demonstrated ability to meet contract schedules and delivery dates.

iv. Customer Satisfaction. The offerors demonstrated commitment to maintaining an acceptable level of performance and customer satisfaction.

v. Subcontracting Plans. The offerors ability to meet or exceed its subcontracting plans.

3. Contracting Officers will use the following adjectival definitions as guidelines in evaluating past performance:

a. Neutral: Offeror does not have any past performance information available for evaluation. Offeror does not receive merit or demerit for this evaluation factor.

b. Exceptional: Deliveries are on time and meet contract requirements and they would unhesitatingly do business with their offeror again. Product exceeded contract specifications. Complaints are negligible or unfounded.

c. Average: Most deliveries are on time and meet contract requirements and they would be willing to do business with the offeror again. Performance met expectations. When a problem arises, the offeror reacts in a prompt, efficient, and effective manner to resolve the problem and minimize any delays.

d. Poor: Many deliveries have been late and/or have not met contract requirements and that they would not, under any circumstances, do business with the offeror again. Customers complaints are substantial or numerous and well founded. Offeror has either presented no persuasive evidence of having taken appropriate corrective action that will guard against such conduct in the future or it appears unlikely that the corrective action will be effective. The government and the offeror have expended a significant amount of time, effort, and money in resolving problems. Failure to perform consistently has resulted in terminations and failure to provide customer service.

4. Offerors lacking relevant past performance history will receive a neutral rating for past performance. The offeror must provide the information requested above for past performance evaluation or affirmatively state that it possesses no relevant directly related or similar past performance. An offer that fails to provide the past performance information or to assert that the company has no relevant directly related or similar past performance may be considered ineligible for award.

C. COST/PRICE

1. Although price is not the most important evaluation factor, it will not be ignored. The degree of its importance will increase with the degree of equality of the proposals in relation to the other factors on which selection is to be based.

II. The Government may award a contract on the basis of initial offers

received, without discussions. Therefore, each initial offer should contain the offerors best terms from a cost/price and past performance standpoint. However, if considered necessary by the contracting officer, discussions will be conducted only with those offerors determined to have a reasonable chance for award.

EVALUATION OF PREVIOUSLY APPROVED SINGLE PROCESS INITIATIVE (NAVSEA) (NOV 1996)

Previously approved Single Process Initiative (SPI) processes will be evaluated under the source selection criteria of the RFP. If the successful offeror has previously approved SPI processes in the proposal, those SPI processes will be incorporated into the contract upon award.
